

## THE VALLEY GREENSPACE

Target 80 CIC and The Valley Greenspace are in collaboration on an initiative that will offer hot desk facilities in Chew Magna and would like to hear from you if you or your organisation are interested. The new space will include flexible hire of a desk or a separate office suitable for client contact sessions. These are based at at Tunbridge Mill, Tunbridge Road.

Wi Fi broadband will be included in the hire charge and we are currently assessing the demand for access to the B&NES secure broadband network so please let us know if that includes you.

All facilities are on the ground floor, will be pre-bookable and charged at an hourly or daily rate as appropriate. There will be opportunities to reduce costs for longer term or regular bookings. We have off-street parking and will be ensuring that the facilities are as accessible as we can make them within the restrictions of the building. We are aiming for a March start date and welcome any enquiries for information.

Please contact:

Denise Perrin on [denise.perrin@target80.org](mailto:denise.perrin@target80.org)  
or call 01275-333430 to register your interest.
